Coordinated twin martyrdom attack on main US base, helicopter shot down
MAIDAN WARDAG, Sept. 01 - A powerful coordinated martyrdom attack has rocked the main American military base in Sayedabad district, according to officials reporting from Maidan Wardag province. The attack unfolded at around 05:00 am local time when a martyrdom Mujahid (Ahmad), armed with a rifle and an explosives vest stormed the main gate and cleared all obstacles for a secondary martyrdom seeker to drive his explosives laden truck inside and detonate it close to the living quarters of the Americans as a result, a large part of the base was completely destroyed and engulfed in fire while tens of invaders were killed and wounded as well as a surveillance balloon and several tanks parked inside completely destroyed. It is said that the adjacent district HQ and intelligence HQ buildings of hirelings were also severely damaged in the powerful explosion. Officials from the area add that several helicopters arrived at the scene after the blast from which 1 was shot down with rocket fire, plunging it into the fire blazing inside the base, causing the invaders further losses. The martyrdom attack happened at a time when other American invaders based inside Zangori outpost, Sayedabad, were also transferred to this base last night and Zangori outpost abandoned out of fear of being overrun by Mujahideen. It should be mentioned that this large attack hit the same base which was targeted with another truck bomb last year which left more than 70 invaders wounded, as claimed by American officials and comes on the heels of martyrdom attack on Camp Salerno, based in Sahrabagh area of Khost, two months earlier in which the Americans said 130 of their soldiers were wounded. Americans are known to always play down and hide their casualties in the initial phases of the attack and always claim that civilians were killed but they do on occasions state fabricated casualties after a long period of time so to undersize the media impact however what is observed by witnesses is in complete contradiction with that of the official releases of the invaders to the media. STATEMENTS

Statement of Islamic Emirate regarding America using name of conjured entity 'Haqqani Network' and its black listing

21 Syawal 1433 - 08 September 2012

Anyone who has ever taken lawful action against and rejected the ambitions of America's imperialistic policies then they have always become targets of the America's satanic plots and satanic actions. In continuation of this trend, a self-created network attributed to the honorable Afghan Jihadi personality, Mawlawi Jalaluddin Haqqani, was inscribed into the black list despite there being no separate entity or network in Afghanistan by the name of Haqqani.

The honorable Mawlawi Jalaluddin Haqqani is a member of the Leadership Council of Islamic Emirate and is a close, loyal and trusted associate of the esteemed Amir-ul-Mumineen and those Mujahideen entrusted under the command of his sons are in fact the heroic Mujahideen of Islamic Emirate who like other Mujahideen strictly obey the esteemed Amir-ul-Mumineen and wage Jihad against the invaders throughout the country.

By employing its satanic plot, America is trying to create and black list a separate entity in the organized and unified rank of Islamic Emirate while its biased media expound the same narrative however this is nothing out of the ordinary in the dark history of these invaders. This evident plot has been for years running into failure and America has repeatedly faced hopelessness in achieving her malicious intention. That is why the enemy is reaching out to these failed experiments instead seeking resolution to the real problem. America should understand that it is further provoking the anger of the Muslims against herself with such actions and all the negative consequence of this inhumane and criminal action against the Islamic Emirate will fall squarely on the shoulders of deceitful America and others implicated in this process.

The Islamic Emirate does not place any value in the black and white lists of the enemy even though these ineffective pronouncements began some fourteen years ago. Many of the high ranking officials of Islamic Emirate including the honorable Haqqani Sahib have been enlisted in this or that list however it has not effected our struggle negatively one bit neither has it yielded the desired result and neither will it in the future therefore this latest announcement will also be ineffective and the Islamic Emirate of Afghanistan strongly condemns it.

The Islamic Emirate does not have any trade agreements with any American companies or individuals and neither does it have monetary funds there which could be frozen. This cowardly act of yours in which you enter Mujahideen of Islamic Emirate into your so-called black list is indicative of your complete defeat and dismay. This step will never weaken the determination of our nation and Mujahideen but it shall further strengthen them and its bitter and heavy burden shall hang from the neck of America.

Statement of Islamic Emirate on the eleventh anniversary of the September incident

It has now been eleven years since oppression was unleashed upon the miserable Afghan people and fire lit in our homeland at the hands of America under the disguise of retaliation for the September incident.

The anniversary of 9/11 is approaching America this year at a time when it is facing utter defeat in Afghanistan militarily, politically, economically and in all other facets and it has exhausted all other means through which to prolong its illegal war.

The war declared on Muslims and Islam by America eleven years ago under this pretext has with the divine help of Allah (SWT) lost all its power and the criminal warmongers are fleeing the battle ground one after the other. Although the blood of hundreds of Afghans was shed by this illegal and unjust crusade however the invading Americans and its deluded-by-propaganda coalition was also handed unequivocal defeat and thousands of their troops were killed. The oppressed but valiant Afghan nation, in defense of their country and religion, proved through their sacred struggle and Jihad that the invasion under pretext of retaliation for the September incident has no legal or ethical bases. Every action that you take in this path only displays your brutality, oppression, savagery and arrogance because the Afghans have had no hand in the 9/11 incident and neither have you been able to provide any legitimate or logical proofs.

Your presence in Afghanistan under this illegal pretext is the reason for the unrest in this entire region and is related directly to the insecurity, political and military problems faced by America and her ensnared allies. Despite America spending large amounts of military and economical assets under the title of homeland security and murdering thousands of its soldiers by the hands of Afghans however no American is safe in any society today rather they are discriminated against in every country and region and everyone considers it their right to kill them! since they have oppressed all and have endangered the security of the entire world for their own advancement.

The Islamic Emirate, on the eleventh anniversary of the September incident, once again calls upon the American officials, its coalition members and its people to halt shedding the blood of the oppressed Afghans under this pretext and to follow the path of sound reasoning instead of tyranny and stupidity. Availing this moment, the Islamic Emirate of Afghanistan once again clarifies to the entire world including America that we are neither a threat to anyone nor will we let our soil be used to harm anyone. It is our due legal and religious right to defend our homeland and establish in it an Islamic system and we shall continue with our sacred struggle and Jihad against the invaders until we attain this right and we sincerely believe in being victorious in achieving this ambition and defeating the enemy.

Remarks of spokesman of Islamic Emirate regarding report published by Royal United Services Institut

24 Syawal 1433 - 11 September 2012

The Royal United Services Institute, a London based so called think-tank published a report yesterday in which it remarked that the Taliban (Islamic Emirate of Afghanistan) are prepared to accept the presence of American forces until 2024 in their talks and other such fatuous jibber-jabber. The Islamic Emirate of Afghanistan strongly condemns this malicious and strictly propaganda based report of the said think-tank and declares it has no plans of prolonging the American invasion of Afghanistan even for a single day. Our religion, national interests, national pride and values forbid us from making such illegitimate deals or agreeing to the continuation of invasion or accepting their revolting presence due to fear and our own safety. We believe that this report by the so called think-tank, based on the opinions of a few anonymous faces, is fabricated and consider it the direct work and move of the intelligence circles prepared for its people and for raising the moral of its defeated troops. In this regard, we ask all media outlets to contact the official spokesmen of Islamic Emirate for verification before publishing such fabrications for propaganda purposes so to affirm their impartiality and negate deceiving the masses.

Statement of Islamic Emirate regarding insult of the great Prophet (SAW) of Islam in America

26 Syawal 1433 - 13 September 2012

The Islamic Emirate of Afghanistan condemns with the strongest of words insult towards the great Prophet of Islam, Hazrat Muhammad Mustafa (SAW), perpetrated in a screening in an American cinema with the authorization of its government. Since America declared its open war on Islam eleven years ago, it has repeatedly and on various intervals insulted the inviolable sanctums of Islam. Such revolting actions are not acts of individuals but rather are activities done with the approval or even directly by the government.

We, as the staunch defenders of Islam, make it very clear to the American regime as well as its rebellious transgressing individuals that such actions will not bring you any closer to your malicious goals but vice-versa; it shall further unveil the true satanic face of your government especially to the Muslims and will drive the Muslim world to communally respond with an appropriate reaction.

The bestial natured America has violated the religious, ideological, national and cultural sanctums of various countries and nations in its dark history and has allowed such irresponsible acts to flourish in its country therefore the international community and specifically the Muslim nations and countries should join hands and create an unbreakable alliance against this common enemy in order quickly respond to these evil elements with an appropriate and stern reaction and to contain these gross offences.

The Islamic Emirate also calls on all its Mujahideen to stand firm against all the violations against our heavenly book (Quran), Prophet and other sanctums perpetrated by the invading America. The Mujahideen in Afghanistan should avenge these actions of the American government by dealing a heavy blow to its invading troops on the battlefield. Similarly, the Islamic Emirate calls on all of the religious scholars of the country to fully inform the masses about such barbaric acts of America in their sermons and to prepare them for a lengthy struggle.

Reaction of Islamic Emirate regarding indiscriminate bombing of women in Laghman

01 Dzulka'edah 1433 - 17 September 2012

The Islamic Emirate of Afghanistan condemns with the strongest of terms and vows to avenge the deliberate indiscriminate and heartrending bombing of innocents carried out yesterday by the bestial American invading forces which left 8 women and 2 girls martyred as well as 38 other civilians including white bearded elders and juveniles wounded as they were out collecting fire wood from a mountain in Noor Laam Saeb area of Alingar district, Laghman province.

Our enemies have stooped to such a new low that they now even view our women as armed Mujahideen, bomb them with several tonne bombs and carry out mass murder. Such deliberate actions of American soldiers towards the lives of Afghans display their utter indifference and heartlessness and only serves to invalidate their claims of caring for civilians. Such painful tragedies against our innocent and oppressed nation began with the onset of the American invasion and have been ongoing for the past decade.

The Islamic Emirate of Afghanistan calls on all Human Right organizations and especially Women organizations, who always advocate women rights, to not remain silent in face of such a heartrending event. This disgraceful action is an international war crime, the perpetrators of which should be prosecuted. We also call upon our nation to quickly take revenge against the invaders for the indiscriminate murder of our innocent sisters and send a message that your tyranny and violations are no more tolerable in our country. Our countrymen should understand that the barbaric American invaders also have hand in all those bombings and incidents which are carried out throughout the country to defame the Mujahideen and which the enemy propagates through its media without providing any substantiated proof.

Reaction of spokesman of Islamic Emirate regarding claim by ISAF

09 Dzulka'edah 1433 - 25 September 2012

The claim by foreign invader forces based in Kabul earlier today that there has been a 10% decrease in Mujahideen initiated attacks and interpreting this as decline in their capacity is strongly and categorically rejected by us.

Firstly, the attacks by Mujahideen against the invaders are ongoing at its usual pace. On the other hand, the enemy has chosen to withdraw from large parts of the country and have abandoned major bases which naturally amount to a decrease in attacks. Another reason for the decline is that the enemy has chosen to limit its movement outside its bases. No matter what tools Mujahideen use to tempt them out, attack them from close range, bring their bases under missile strikes; still the cowardly enemy does not come out of its hole. The Mujahideen of Islamic Emirate are operating out of their tranches with high moral and strong determination and will continue their assaults against the enemy. That the cowardly enemy refuses to confront Mujahideen face to face, it only displays their own weakness and not that of the heroic Mujahideen. Allah willing, the Mujahideen will turn their focus towards such military operations which will target the enemy with large scale attacks inside their own bases and will force them to flee the country.

Report of investigation by qualified board of Islamic Emirate regarding claim of beheading of 17 civilians in Roshanabad area of Helmand province's Sangin district

09 Dzulka'edah 1433 - 25 September 2012

The officials of Kabul administration in Helmand province claimed 2 months earlier that seventeen people including 2 women were brutally beheaded at night time in Roshanabad area of Sangin district. The mentioned event was picked up by all major news outlets citing the Kabul administration's spokesperson for Helmand province (Daud Ahmadi) as a source and placing the blame squarely on the local Mujahideen of Islamic Emirate.

The high ranking Mujahideen officials in the area were repeatedly questioned however the answer each time was that no Mujahideen were involved and neither are they aware of such an incident taking place in that remote region. As the area was under the control of Mujahideen of Islamic Emirate, therefore the head of Islamic Emirate dispatched a qualified board to the region to carry out a full, thorough and prolonged investigation and then forward the findings back to the leader. The final report of this qualified board of Islamic Emirate has completed its investigation, the results of which we want to share with the media as well as the entire nation.

The mentioned claim which supposedly took place in Roshanabad area of Helmand province's Sangin district has not occurred in the stated area or in the entire province. The board of Islamic Emirate, with help from the elders, youngsters and distinguished personalities, travelled on foot in the province's Sangin, Musa Kala, Kajaki, Bughni, Baghran and Zamindawar regions, went from door to door and asked about related information and found that all the locals labeled the incident as fabrication and showed complete ignorance of such a happening.

Two respected personalities of Roshanabad (Haji La'l Muhammad and Haji Muhammad Yar) said that they were taken by surprise after hearing about the incident and promptly carried out a joint investigation with the Mujahideen and locals in the initial days however nothing as such has transpired in the entire Sangin district and especially in Roshanabad area thus all the residents of the area are now certain that this claim is a blatant lie; nothing like this has taken place here; no one plays music here and neither has anyone been killed for such a thing; no one has seen the bodies of the dead and neither is there a single person aware of the incident.

The above testimonies as well as the repeated investigations clearly show that no such event has ever taken place in Roshanabad, Sangin or even the entire Helmand province as was claimed by the Kabul administration's spokesperson for Helmand province as well as published by some self-interested outlets as headline grabbing material by using one-sided information and for defaming purposes.

The Islamic Emirate has completed its investigation regarding this matter and states that nothing as such has taken place in the area and all the reports and claims about it are false. If any person or sides including the media want to carry out an unbiased investigation in the area and inform itself on the matter, then they are welcomed to send their teams and inquire with the people, collect information and carry out their duty. The Mujahideen of Islamic Emirate based in the area will help all those who wish to clear up facts and inform themselves about the realities.

To the attention media outlets

09 Dzulka'edah 1433 - 25 September 2012

The defeated enemy's media outlets, in some statements released today, claiming falsely that four Mujahideen one whom dressed in women's clothing who were interviewed (a fake interview) by some media outlets had been captured by puppets (ANA) in Zurmat district of Paktia province.

Mujahideen authorities launched an inquiry into the capture of the four and after investigating the issue, they came up with the conclusion that it was fake case four phony Mujahideen or actors one of whom dressed in women's were brought and interviewed by some media men who made it appear like real Mujahideen and discredit real Mujahideen. It is in fact, it is ridiculous. It is not the first time the US invaders and their puppet, in a bid to cover up their panic and disgraceful defeat, have committed such an act beneath of the honored ones in other provinces of the country. The US faked it in Iraq as well, the Jews did it in Palestine. It is no more a new trick to fool the people. It is, now, old fashioned.

Moreover, Mujahideen are active in Zumat and can operate using motorbikes and vehicles freely which makes it out of question for Mujahideen to dress in women's outfit. Besides, the Afghans, and the world know that Mujahideen need no such tactic for the would not be able to carry out such widespread campaign against half of the entire world in Afghanistan and bring some or so 47 countries to their knees.

Zabihullah Mujahid, the Islamic Emirate's spokesman

Statement of Islamic Emirate regarding the historical day of 6th of Mizan

11 Dzulka'edah 1433 - 27 September 2012

6th of Mizan 1375 was a day in history in which the dream of our oppressed and persecuted nation came true. A dream for which it sacrificed one and half million people, endured mass immigrations, suffered hunger and thirst and waged fourteen years of Jihad against the soviet invasion in hopes of establishing a pure Islamic government but as it was on cusps of reaching its goal, some elements disguising themselves in the clothes of Jihad betrayed our nation, washed away the aspirations of our martyrs and sold the hopes of our orphans and widows for their personal and party interests. Instead of an Islamic government, they laid the groundwork for civil war, established anarchy and brought our country to the brink of destruction and dissolution.

At this critical juncture, a few sensible Mujahideen, religious scholars and students (Taliban) under the leadership of Commander of the faithful, Mullah Muhammad Umar Mujahid, rose up for the salvation of its oppressed nation and to protect the aspirations of the martyrs and in a short period, delivered large parts of the country from evil and corruption and practically established in it the rule of the Divine Book, the Holy Quran. With the rolling up of evil and corruption from land, Kabul was completely cleansed from wicked elements and foundations for an independent Islamic rule were instituted on the 6th Mizan, 1375.

On this day, the white flag of Islam was unfurled in Kabul; the war criminals and mass murderers of our defenseless nation prosecuted; the pillars of Islamic Emirate, founded by historical and righteous persons of the country, strengthened; the country practically delivered from fragmentation; almost all parts of the country cleansed from bandits, thieves and illegal check points; nation was able to breath a sigh of relief; security was established in 95% of the country; the honor, dignity, wealth and lives of the people was secured; all possible foundational steps were taken to regenerate Education; the crumbling government administration was restored from ground up and the long lost hope of our oppressed nation was finally achieved. Therefore this day in history is a day of joy, happiness and victory for the entire oppressed nation, heirs of martyrs, widows and orphans as well as for the Mujahideen in the trenches.

Since an Islamic government was not acceptable to the known enemies of Islam and to the tyrannical forces henceforth the Islamic Emirate was also a prick in their eyes and plans were put into action against it. After the fall of communism, the pinnacle of American policy and agenda was enmity towards political Islam therefore it chose a road of arrogance and confrontation towards the Islamic Emirate instead of understanding and dialogue until it physically violated our sanctum in the year 2001 under various excuses.

Now that our nation has been under foreign occupation for the past eleven years, the aspiration and source of happiness (Islamic government) snatched away from our countrymen and instead the most corrupt, subservient, servile and puppet regime installed therefore we deem it necessary to record this day (16 years earlier on 6th of Mizan) a day of commemoration in the golden pages of our history and in the process give glad tidings to our Muslim nation of the approaching victory, Allah willing. It is not far that after eleven years, the foreign invaders shall be forced out humiliated, national traitors and war criminals prosecuted like their predecessors and the aspiration of our martyrs shall be realized by once again unfurling the white flag in the entire country and establishing in it an Islamic government.

Islamic Emirate of Afghanistan

In the recent past why the enemy has accelerated unsubstantiated propaganda?

14 Syawal 1433 - 01 September 2012

Overall the enemy has taken full advantage from baseless and unfounded propaganda as an important part of their war strategy. In the beginning when they were going to attack Afghanistan they started this kind of propaganda. Not only in Afghanistan but also in Iraq they interpreted their illegal intervention on the basis of such false and unjustifiable propaganda. Later on it was proved that their justification was totally wrong and nothing illegal was found there.

It was just because of this false and baseless propaganda that the short sighted and warmonger politicians of the west lost their credibility in the world community. They are also facing the deep disgust of their own people, to the extent that their masses came out to the streets because of their wrong and malicious policies.

In the holy month of Ramadan especially in the last ten days the enemy had a severe blow by the Mujahidin which took them to task. They turned towards propaganda to spread distrust among Mujahidin. In this way they wanted to decrease the quality and quantity of the attacks of Mujahidin.

A few days earlier an official of the puppet regime of Karzai administration said that they had met Mulla Birather in Islamabad for peace talks. But after a very short span of time another official of this dependent administration denied his colleague's statement. The helpless and restless administration of Karzai is weak and incompetent on such a high level that it cannot fully investigate and analyze the incidents. This is the reason that there is total contradiction between their statements.

Another news given by them is the meeting of some high level officials of Islamic Emirate in Dubai including Agha Jan Motasim, whereas he has no official designation in Islamic Emirate since long.

They also spread the news that Islamic Emirate has brought changes in their policies regarding female education, national army and terrorism. The Islamic Emirate has repeatedly said that neither it was against the female education nor it is, in the light of Islamic rules and national interests. But the rights and education provided by the west for the honor and magnanimity of women is only an empty slogan; which is acceptable neither by the spiritual and religious minded Muslim masses of Afghanistan in general nor by the modest and virtuous women of Afghanistan in particular.

Similarly differentiation should be made between terrorism and the defense from one's own rights. The trespassers have invaded the Afghan nation and their freedom is denied. Their sanctities, culture and glories all are on stake. Everyone has the right to defend ones faith, soil and sanctity according to all internal laws. It is never terrorism and no rational man can call it terrorism.

Why the enemy is making this kind of baseless and false propaganda? Everyone knows the reason. The enemy wants to conceal its defeat and divert peoples' attention. But the realities should be accepted. Instead of reaching its malicious objectives by this kind of baseless propaganda which is not possible forever, it is better to surrender to the ground realities. They should handover the rights of the Afghan nation to them. They should discontinue their killing and torturing. Let the oppressed Afghan Nation determine its destiny by itself.

American decision regarding the burning of the Holy Quran is an ignominy for the American nation.

14 Syawal 1433 - 01 September 2012

February 21, 2012 was the tarnished day for the American army which will be remembered in the world history as a black mark on the American face. They will never be able to avoid the negative impacts of this incident. The following generations will remember this brutal act of the American forces as a symbol of shame, immorality and barbarism.

In-between Monday February 20, 2012 and Tuesday February 21, 2012, the American soldiers threw 500 copies of The Holy Quran and other Islamic books on a pile of refuse and put them on fire. They burnt these books in Bagram airbase, inside Afghanistan. They had snatched these books from the hands of prisoners. They knew very well that this is a holy book for all the Muslims. On that day the Muslim nation of Afghanistan was so agitated which frightened the enemies of Islam from Kabul to Washington. News reporters were making lame excuses. General Commander of NATO, Jan Alan, the defense minister Panetta, secretary of state, Mrs. Clinton, American president, Obama, all of them were apologizing and making false promises of investigations and punishing the culprits. Three investigative teams were formed very quickly and it was announced that everything will be clear very soon and the wrongdoers will dealt accordingly.

But after six months of investigation of the American judges and attorneys the outcome (result) put everyone in bewilderment. They decided that (American military investigation has give disciplinary punishment to those six soldiers who were involved in burning the copies of The Holy Quran last February. Similarly those American soldiers who had humiliated the dead bodies of Taliban were exempted from criminal punishment and faced only disciplinary punishment. American army says that these soldiers have not committed these acts intentionally.) (B.B.C. 28/8/2012).

This American decision is a even a greater insult to the will of the American nation, government, judiciary and the law as compared to the disgrace of the will of the Afghan nation. The grandeur of nation springs of ethical principles and where the ethics are so degraded that the dead bodies are being urinated and then published proudly, holy books are burnt and the judges do not consider it a crime; there is no greater indignity than this?

Now it is quite clear to the world that the American authorities do not know any spiritual and ethical values. They do not pay respect to the sanctities of other nations. American law has no human or moral base. This law discriminates between the Americans and others. It violates the human rights although it proclaims the protection of human rights. There judges do not call a crime a crime but call it indiscipline. So they gave these criminals only disciplinary punishment. It means that the rank of a soldier will be lowered, will be charged with extra duty or he will be fined a few dollars.

These incidents have disclosed a reality that the American soldiers commit these kinds of crimes on behalf of their government. These are not individual crimes but are disciplined to do so. When the mentality and moral standard is so degraded then nothing good can be expected from ordinary people, soldiers and generals.

May those people who consider America a close friend of Afghanistan and remain always in their service should understand now that Americans are the enemies of Allah Almighty and his revealed sacred book, the Holy Quran. It is vital that Allah's enemy can never be an ally of the Muslim. It is also an undeniable fact that the friendship and enmity of Allah cannot be associated together in one heart.

Arbakian or a killing gift of America for the Afghan Nation?

Saturday, 21 Syawal 1433

Saturday, 08 September 2012 12:58

The Arbakism (a tribal soldier system) theory came to the mind of American general David Petraeus, when he was the commander-in-chief of NATO forces in Afghanistan and was the leading official of implementing the Obama war strategy. This unsuccessful American general who carried out his duty from 3rd July 2010 to 18th July 2011 was deeply embarrassed by the Mujahidin of the Islamic Emirate and even lost his previous reputation. On the other hand during his time the Kabul regime also faced severe attacks of Mujahidin and a number of leading personalities were killed.

The Afghan Nation having a bitter experience of these notorious militias and anarchists, quickly and courageously opposed the formation of these assassins and illegal gunmen. The writers, intellectuals, influential persons and general public cried to have a pity on the Afghan Nation; not to make nuisance; not to repeat the unsuccessful experience of the (former) Soviet Union. But this general, the enemy of Afghans did not listen to anyone.

Now just two year after the formation of these unfortunate militias and their number is only 18 thousands, our oppressed nation is fed up with this vagrant and slapdash army. The general public, families and tribes are facing a lot of troubles. They are humiliated, their belongings are looted, their children are killed but the invading trainers are still trying to increase their number and train them in non-Islamic ways. There is a rumor that they are increasing their number to 30 thousand. Right now per day fifteen or sixteen persons are killed and tens of others are tortured, then approximately one hundred and fifty defenseless people will be killed and thousands others will be tortured.

The Americans say that they are here for the protection of Afghan Nation and they call themselves the ISAF (International Security Assistance Force) and they want to be appreciated for this noble task. Actually they have other ominous ideas in their minds.

Not only America but also any other trespasser follow the principal of caring for those people who assist them. They give them privileges. They appreciate them with different titles. But those who oppose them are called bad names and a slanderous language is used for them. The invaders treat them very harshly so that the general public should not resist. It is a fact which cannot be denied and history has proved it.

On 2nd September in Kunduz province these notorious militias made a doomsday on the innocent people in front of the provincial admin office. They martyred fifteen persons including children and wounded so many others. Nearly one month ago in the Khas Orzgan district of Orzgan province the deadly incident in which the obstinate commander of these militias killed seventeen villagers proves that the brutality of these American supported militias will exceed those made by the then Soviet Union.

The American general Petraeus who is now the director of the Central Intelligence Agency, is directly involved in these killings, is enjoying these incidents and considers it a great achievement. This is just because the Afghan Nation did welcome the American invasion; instead they resisted them very boldly. They welcomed the Mujahidin. The American authorities are angry and are taking revenge desperately. In the future the American should try to understand a very simple thing and that is: The Afghan Nation has a very strong conviction in Allah Almighty and is fully confident of the success of Jihad. They will continue their Holy Jihad against the invaders until and unless the invasion of the beloved Afghanistan is brought to an end. And that is never hard for Allah Almighty.

Who should be executed, the Mujahidin or the national traitors?

27 Syawal 1433 - 14 September 2012

It is an accepted reality and all the free nations are agreed upon it that assisting the invaders at the time of occupation of one's own homeland is not only a betrayal with one's own people but also an unforgivable felony. World history is fraught with the evidences that the people who have supported the trespassers against their religion, culture and national prestige are always ignominious. It is always regarded an indignity and disgrace for their coming generations.

When Shah Shuja was enthroned by the British on August 17, 1839, he faced tough resistance from Afghans. The Afghan Nation declared holy war against the English nation. In the north of Kabul Mujahid Mir Masjidi Khan and Sultan Muhammad Najrabi, from the south of Kabul Abdullah Khan Achakzi and Aminullah Logari and Sardar Muhammad Akbar Khan son of Amir Dost Mohammad Khan accompanied the Mujahidin and they killed Dr. Macnorton on September 23, 1841.

On April 27, 1978 when the former Soviet Union brought the communists in power, the masses resisted and declared holy war against them. At that time every official of the Kabul admin including police and military was the target of Jihad, because they were supporting the infidels. It is also clear that at that time police and soldiers were neither paid by the then Soviet Union nor the communist regime, rather they were recruited by the communists forcefully.

On October 7, 2001 when the Americans and their allied invaded Afghanistan, the Afghan Nation once again unsheathed their swords and entered the field of Jihad. They defeated the invaders who are now to flee. Most of the trespassers have prepared the schedule to escape. The sincere slaves of these invaders are also trying to rebuild their lost reliability among the people.

It is a regret that the American stooges call themselves Mujahidin and expect from the people to respect them. It is a fact that our people respect Mujahidin. But on the other hand Mujahid is one who fights against a non-believer, not the one is under the command of an aggressor and fights one's own people.

There is a great difference between suicide and martyrdom attacks, because suicide is self-killing and martyrdom attack is seeking of martyrdom willingly. The reason behind suicide is frustration from life and the seeking of martyrdom is actually seeking the consent of Allah. It elevates the word of Allah and strengthens the Muslims. The objective is to frighten the enemy, kill them and eventually defeat them.

There are frequent proofs in favor of martyrdom attacks in the Holy Quran, traditions of the Holy Prophet (peace be upon him), sayings and deeds of the holy companions. Various books have been written on this topic i.e. Al-amalyat Al-istish hadia Fil-mezan Al-fiqhi written Shaikh Nawwaf Al-takrori and Al-adilla Al-shar aiya fi Jawaz Al-amalyat Al-istish hadia written by Ali Bin Naif Al-Shahood.

A number of religious scholars have given verdict in favor of martyrdom attacks. Some are as follow:

1. Al-Shaikh Nasir Alumar.
2. Al-Shaikh Ibn-i-Jabrin.
3. Al-Shaikh Suliman Al-alwan.
4. Yousuf Bin Salih Al-ayiri.
5. Abu Ishaq Al-Hawini.
6. Hamood Bin Aqla Al-Shaiibi.
7. Al-Shaikh Nasir-u-Din Al-albani.
8. Dr. Yousuf Al-Qarzawi.

On the other hand the Scholars have put strict conditions on martyrdom attacks. The first condition is the loftiness of target and abstain from public casualties. Therefore in all the messages of Amir-ul-Momineen, it is repeatedly reminded to the Mujahidin to desist from public casualties and be cautious in choosing the target. But most of the time our sly enemy and their stooges blast bombs amid the masses and then blame Mujahidin for it. They have done it in other countries as well.

It is a regret and even unjust that the people who call themselves Mujahidin, do not talk about Jihad in their meetings. They do not ponder upon the ways and means of ending the aggression. They do not say anything about the cruelties of enemy over the masses. Instead they never fed up with the backbiting of the Mujahidin who have taught an admonitory lesson to the enemy whose cries have been heard worldwide.

The disgrace of the sanctities and the responsibility of the Muslim Ummah!!!

05 Dzulka'edah 1433 - Friday, 21 September 2012 14:21

The reverence and respect of the sanctities is a crucial demand of the human nature. Every human being irrespective of his creed or religion is obliged to respect his sanctities. He considers their defense as his legal right and is ready to sacrifice his life, wealth and family for their sake. This is a reality which cannot be denied by a realistic man.

The earlier heavenly books which are cancelled now and the earlier disciples also believed in the reverence of the sanctities. Islam being a natural religion, considers the respect of sanctities as an important principle, therefore the Muslims are obliged to spend their lives in the light of the teachings of the Holy Quran and the sayings of the Holy Prophet (peace be upon him). They should defend their sanctified things and should continue the pure Jihad until and unless temptation and tribulation is replaced by peace and triumph.

In the present day world the activities full of hatred and tribulation launched by Jewish mischievous elements and supported by the western media are unprecedented in the History of Islam. The disgrace of the Holy Prophet (peace be upon him), making films and cartoons about him, and then defending them by the arrogant leadership of the western countries with the lame excuse of the freedom of speech, is actually alarming for the existence, honor and Islamic identity of the Muslims of the world. Our lands, masses and national assets are already plundered by these western looters and now they are disgracing our religious sanctities.

These anti-Islamic activities of the western world necessitate the unity of Muslim countries and taking a unified stance on the latest issue. We should boycott them diplomatically and commercially until they penalize these dunces and stupid fellows or at least bring them under control. In this way the heads of the Muslim states will not only be getting the pleasure of Allah Almighty but they will also be exalted amongst their masses; because

1 In the current week the enthusiastic demonstrations against the west in various countries of the world showed that the valiant Muslim masses are ready for any kind of sacrifice to defend their religion. They will not only support their leadership but will play the role of an insurmountable army as the companion of the Holy Prophet (peace be upon him).

2 The successful and brave attacks of Mujahidin over the Anglo-American base of Shorab in Helmond province show that the coward soldiers of the west cannot combat the Mujahidin. In these offensive attacks less than 20 people had participated. But the scale and the strength of the attacks equally shocked both Washington and London. The American and British authorities gave contradictory statements in their shivering voices. In the past ten or eleven years this is the first time that the enemy acknowledges the importance, menace and effectiveness of these attacks with their eyes lowered. Apart from manual and financial losses of the enemy, their international role, status and morale had an unrecoverable blow which brought their military capability under question and nullified their modern technology. Similarly in Mezana of Zabul province and Babaji of Helmond province the deadly attacks of the conscious Afghan soldiers compelled the enemy to admit six casualties. The reality is quite high than the admitted. The heads of the Islamic states should contemplate on the reality that Allah has given such a might to less than twenty M'omins who gave an admonitory punishment to the enemy; what will be the strength of the fifteen million volunteer Muslim army, by the grace and support of Allah Almighty?

Civilized Nations & Un-civilized Activities

04 Dzulka'edah 1433 - 20 September 2012

Our beloved Prophet (PBUH), the last messenger of God, was the best of the mankind sent as a blessing for this world and world hereafter. Hence what ever is there in the holy book of Quran are his manners, dispositions, ethics and morality. If you turn the pages of history you shall find no equal The Prophet Mohammad (PBUH) was a candle of knowledge and wisdom. His every message was a message of peace. In his (PBUH) every say and instruction there was a philosophy of life and discipline. In nut shell in his message there was a gain for this life and life hereafter.

That great man who was even worried for his Ummah for the Day of Judgment asks mercy from Allah for his followers.

Is not this a matter of concern that the same Ummah has forgotten his message? His instructions and sayings are like a candle in the path of darkness. Today to follow his instructions apart, Muslims do not even consider it necessary to think over them for a while. Though his instructions and sayings are the golden rule which ensures a successful life in this world and life here after. If we adopt those rules we can become successful human beings. Alas, we have gone too far off from our Allah, religion and Prophet (PBUH), and same has caused our down fall. We are blindly running after the materialistic world and have involved ourselves into sins that people of other religion have started ridiculing the Muslims. We are considered as the wicked nation of the world and the Islam which is a religion of peace and tranquility is termed as the religion of terrorists and wicked.

The things have gone so far that Europeans are working and ridiculing our beloved Prophet (PBUH) and terming him as Prophet of miscreants. This is a stigma on the modesty of Muslim Ummah. If we do not reassess ourselves than a day is not far off when there will be no Muslim left.

The worldly gains have blindfolded us. We care nothing but only ourselves and this mortal life. The nations of world which feel proud by calling themselves the most civilized and educated resort, in the burning fire of Islamic enmity, to most uncivilized acts. To ridicule a Prophet or a virtuous man is considered the most disgusting by all religions of the world. This shows the low mentality and hostile attitude towards Muslims.

In addition, these so called civilized nations considered our beloved Prophet, messenger of God, an illiterate person who has not obtained knowledge from any proper academy. All human beings who believe in our God know that the origin of knowledge rests in God. The God has spread this knowledge through different resources in this world. Now think that the knowledge which reaches you after passing different sources can not be considered as pure, than the knowledge which you receive directly without hindrance. The God Almighty has given the knowledge and wisdom directly to our Prophet (PBUH) and He has enlightened our Prophet with out brining any source in-between. It was a direct blessing bestowed upon our Prophet. Think for a while how complete and comprehensive that knowledge would be which is received directly from Allah. There is wisdom for those who profoundly study the words of Allah. The Prophet (PBUH) himself said "I am the city of knowledge and Ali is the gate of the city".

If you study observantly the life of Prophet (PBUH), you shall find him a role model for the entire humanity.

It is a food for thought that one needs 15 to 16 years to gain worldly knowledge, but our Prophet (PBUH) received the divine injunctions and knowledge of wisdom for 23 years. Our Prophet (PBUH) got benefited from the knowledge which he received from Allah and in whose comprehensiveness there is no doubt. Our Prophet (PBUH) was not blessed with as many miracles as other messengers had yet he got superiority in knowledge and wisdom upon other messengers of God. The God Himself said about him "You Mohammad (PBUH) have been placed as the best of the virtuous". The life of Prophet (PBUH) is the proof of that virtue.

In all the Holy books of the world his name and Prophet hood is mentioned with glory. Is this not sufficient for those who posses the divine books, than why they still refuse to accept his superiority and virtue. If Muslims have left the righteous path like many nations in the past than it does not mean that the Muslims should ridicule the messenger of other religions. Europeans themselves have gone very far from the true teachings of their religion and have forgotten the basic teachings of their religion to the extent that they have brought amendments in their religious book. But the Quran has the miraculous superiority that no body would bring any change in its original divine text. Quran is available in its true and original shape.

Due to the disinterest in their religion the Europeans do not care for the religious emotions of Muslims. Nevertheless, they have no right to play with the sentiments of the people of other religions. To resort to such activities is a heinous crime according to the UN charter which is mostly framed by the Europeans.

For Europeans nothing is more sacred than the freedom of expression and for Islamic world nothing is more sacred than not to hurt the sentiments of human beings. Freedom of expression does not mean to humiliate other sacred place, Holy Books and noble personalities.

Living in so called civilized era we do not claim to be most civilized omens but the fact remains that we have always had a great respect for the feelings of other people and we have never thought of playing with the sentiments of other nations. The biggest of all the sin is to kill the innocent emotions of others.

As it is said that civilized nation are more peaceful, they never try to touch the sensitive issues related to the far most human emotion for the sake of peace.
